

INBRED MAIZE LINE PH6KW

Norman E. Williams

David Lee Benson

5 **Abstract**

10 An inbred maize line, designated PH6KW, the plants and seeds of inbred maize line PH6KW, methods for producing a maize plant, either inbred or hybrid, produced by crossing the inbred maize line PH6KW with itself or with another maize plant, and hybrid maize seeds and plants produced by crossing the inbred line PH6KW with another maize line or plant and to methods for producing a maize plant containing in its genetic material one or more transgenes and to the transgenic maize plants produced by that method. This invention also relates to inbred maize lines derived from inbred maize line PH6KW, to methods for producing other inbred maize lines derived from inbred maize line PH6KW and to the inbred maize lines derived by the use of those methods.
